

Note: NA (not available) stands for missing values

Variable	Explanation	Labels
Group	Adaptation group	0 = zero pointing movements during adaptation phase 5 = five pointing movements during adaptation phase 35 = thirty-five pointing movements during adaptation phase
Magnitude	Magnitude of the aftereffect; corresponds to the first value of the baseline-corrected readaptation phase (= N1)	
Persistence	Persistence of the aftereffect; corresponds to the sum of the absolute values of the remaining 29 values of the baseline-corrected readaptation phase	
B1: B10	Horizontal deviation in cm of the ten trials during the baseline phase	
A1:A35	Horizontal deviation in cm of the thirty-five trials during the adaptation phase	
R1:R30	Horizontal deviation in cm of the thirty trials during the readaptation phase	
N1:N30	Baseline-corrected data of the readaptation phase	
Gender	Gender	0 = female 1 = male
Age	Age in years	
VR	VR experience in hours
